Panattoni do develop 80 500 sqm of space

Panattoni Europe announces that it has commenced construction works on five buildings in four different locations around Poland, totalling 80,500 sqm.

Wroc?aw

In the Wroc?aw region, construction works have started at Panattoni Park Wroc?aw II in Nowa Wie? Wroc?awska, where the park's second building, with 10,000 sqm of space is under development. The new tenants are: Frohe Sp. z o.o.- manufacturer of a wide range of plastic accessories, who will take up 3,500 sqm and V.M.A. NV - manufacturer of electro-technical equipment, who has leased 2,830 sqm in the facility under development.

?ód?

An enormous building site can be seen at Panattoni Park ?ód? East , where two buildings are under development at the same time - a 12,000-square-metre facility for a distributor of household appliances, consumer electronics and multimedia, as well as a 14,000-square-metre building, which is an extension of an existing structure.

Mys?owice

At Panattoni Park Mys?owice, construction works have started on 9,500 sqm of industrial space. It is dedicated to the global leader in hydraulic products. The company already leases space at the park and will move to the newly built facility.

Tarnobrzeg

At the Tarnobrzeg Special Economic Zone Euro-Park- Wislosan, a new manufacturing BTS facility is being built. The 35,000-square-metre facility is dedicated to Nippon Sheet Glass Co. - one of the biggest glass manufacturers for the automotive industry.

Additionally, Panattoni Europe also has two other manufacturing BTS facilities under way. The first one, dedicated to Recaro Aircraft Seating Polska Sp. z o.o., is located in ?wiebodzin and will feature 10,700 sqm of space. The other is a manufacturing facility for Delphi, situated in B?onie near Warsaw, with a total space of 22,000 sqm.
